Respondents.

ORDER REQUESTING STATUS UPDATE

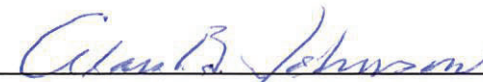

THIS MATTER is before the Court on its own notice. On January 2, 2026, Petitioner filed his Petition/Complaint *pro se* seeking judicial review under the Administrative Procedure Act, 5 U.S.C. §§ 701–06, of a Special Use Permit given by Respondent to the Jackson Hole Community Housing Trust to build several apartment complexes near Petitioner’s home. (ECF No. 1). Simultaneously, Petitioner filed a Motion for a Preliminary Injunction. (ECF No. 2). On August 21, 2026, the Court denied that motion. (ECF No. 25). The Court notes some confusion regarding the categorization of the case on the docket, and clarifies that this case falls under the purview of the Administrative Procedure Act and qualifies as a “Petition” for judicial review. The timing requirements

under Local Rule 83.6 for APA actions therefore apply—that is, “[u]nless a different time is provided by statute or otherwise ordered by the Court, the agency shall file the [administrative] record with the Clerk of Court within ninety (90) days of proper service of the complaint.”

The Court notes that the government did not file the Administrative Record within that 90-day filing period. As such, and considering the above, the Court now requires both parties to file a brief status update that includes (1) the current state of proceedings, (2) the expected date on which the Administrative Record will be filed, and (3) a proposed briefing schedule for adjudication on the merits.

IT IS HEREBY ORDERED the parties shall file a Status Report providing the Court with information on the status of the case on or before **September 28, 2026**.

Dated this 1st day of ~~August~~ ^{Sept.}, 2026.

United States District Judge
